TRENDS IN ECOLOGY AND EVOLUTION REFERENCE EDITION

Volume 3 1988

CONTENTS

January

page

News
What makes a predator specialize? *Catherine M. Bristow* 1
The effect of sex chromosomes on the rate of evolution, *William R. Rice** 2
Ecologists and the global change program, *H. A. Mooney* 4
Courtship and crypsis in guppies: a case for safe sex, *Tim Guilford* 5
Fungal pathogens affect plant population dynamics and evolution, *Paulette Bierzychudek* 6

Reviews
Problems of kin recognition, *Bruce Waldman, Peter C. Frumhoff and Paul W. Sherman* 8
Magnetic versus celestial orientation in migrating birds, *Wolfgang Wiltschko and Roswitha Wiltschko* 13
Landscape dynamics in farmland, *Gray Merriam* 16

Letter to the Editor
Endemism in Hawaiian marine invertebrates, *Alan A. Myers* 20

Perspective
Countershading: universally deceptive or deceptively universal? *Richard A. Kiltie* 21

Commentary
What is wrong with replacement series? *J. Connolly* 24

Book Reviews
Serpentine and its vegetation (R. R. Brooks), *S. R. J. Woodell* 26
Ecological studies in tropical fish communities (R. H. Lowe-McConnell), *Peter F. Sale* 27

February

page

News
Predation may link the cycles of lemmings and birds, *William J. Sutherland* 29
Determining the pattern of resource allocation in plants, *Margaret L. Ronsheim* 30
Dialects and the evolution of the honeybee dance language, *Wayne M. Getz* 32
The SPIDER program: rebuilding ecology in Argentina, *Jorge Rabinovich** 33
Are the pyramids deified dung pats? *Ilkka Hanski* 34

Reviews
Tamarin and marmoset mating systems: unusual flexibility, *Anne Wilson Goldizen* 36
The relationships of the major group of mammals: new approaches, *Michael J. Benton* 40
Plant responses induced by herbivores, *Jack C. Schultz* 45
Adaptive significance of play: are we getting closer? *T. M. Caro* 50

Letters to the Editor
Spatial scale and plant species richness, *Thompson Webb* 54
Comment from *M. Auerbach* 55
Endemism in Hawaiian marine invertebrates: response to Myers, *S. R. Palumbi and E. A. Kay* 55

Book Reviews
Wildlife Radio Tagging (R. Kenward), *Graham Hirons* 56
The Changing Environment (J. W. Moore), *Christine Cowley* 57

Books Received 58

*** See Author's Corrections**

March

	page
News	
Environment and sex determination in alligators, *Mark A. Elgar and Ross H. Crozier*	59
Fungus-growing termites and the tropical environment, *Robert H. Cowie*	60
Can patchiness promote prey outbreaks? *Paulette Bierzychudek*	62
Primary production in the dark deep sea, *Jan C. Gottschal*	63
Reviews	
Dense heterarchies and mass communication as the basis of organization in ant colonies, *Edward O. Wilson and Bert Hölldobler*	65
Caribou, wolves and man, *A. T. Bergerud*	68
Recruitment and the structure of assemblages of fish on coral reefs, *B. D. Mapstone and A. J. Fowler*	72
Letters to the Editor	
Sexual cannibalism in mantids, *Malcolm Edmunds*	77
Fighting in fig wasps, *G. Michaloud*	77
Commentary	
Otolith microstructure and the demography of coral reef fishes, *R. E. Thresher*	78
Evolving the improbable, *Gabriel A. Dover*	81
Scaling of home range size: body size, metabolic needs and ecology, *Michael Reiss*	85
Book Reviews	
Primates (K. Benirschke, ed.), *Anna Marie Lyles*	87
The New Environmental Age (M. Nicholson), *Paul R. Ehrlich*	88
Animal Societies (Y. Itô, J. L. Brown and J. Kikkawa, eds), *Craig Packer*	89
Helping and Communal Breeding in Birds (J. L. Brown), *David Wingfield Gibbons*	90
Books Received	91

April

Planned Release of Genetically Engineered Organisms

(Combined Special Issue with *Trends in Biotechnology*)

Introduction	
Towards dialogue in the recombinant DNA controversy, *John Hodgson and Andrew Sugden*	S1
Meeting Reports	
COGENE/SCOPE at Lake Como, *Michael J. Crawley*	S2
COGENE 88 at Basel, *Stephen Stearns, Jürg Meyer and Jacqui Shykoff*	S2
Projects and Techniques	
Current applied recombinant DNA projects, *Frank Gaertner and Leo Kim*	S4
Genetic engineering: processes and products, *Julian Davies*	S7
The release into the environment of genetically engineered viruses, vaccines and viral pesticides, *David H. L. Bishop*	S12
Genotypes, Phenotypes and Natural Selection	
Genetic engineering, integrated pest management and the evolution of pests, *Fred Gould*	S15
Stability of recombinant DNA and its effects on fitness, *Richard E. Lenski and Toai T. Nguyen*	S18
Genotypic and phenotypic changes in plant varieties, N-S. *Yang*	S21
Biology of Risk Assessment	
Potential for transfer and establishment of engineered genetic sequences, *Robert V. Miller*	S23
Evaluating the risk of releasing genetically engineered organisms, *Lone Simonsen and Bruce R. Levin*	S27
Pollen as a vehicle for the escape of engineered genes? *Norman C. Ellstrand*	S30
Potential effects of recombinant DNA organisms on ecosystems and their components, *Mark Williamson*	S32
The adaptive potential of genetically engineered organisms in nature, *Philip J. Regal*	S36

International Regulation
Regulation of biotechnology in the United States: one and a half years of using the 'coordinated framework', *David T. Kingsbury* S39
Regulations and the European scene, *Brian P. Ager* S42
The involvement of European industry in developing regulations, *N. J. Poole, J. L. Mahler and K. Heusler* S45
Coda
Safety standards for the environmental release of genetically engineered organisms, *Simon A. Levin* S47

May

page
News
Escalating wars between salamanders, *Henry M. Wilbur* 91
Transplant experiments with bird song, *P. J. B. Slater* 92
Evolution at a snail's pace, *Richard A. Nichols* 94
The quagga case: molecular evolution of an extinct species, *Austin L. Hughes* 95
Reviews
Sexual selection and the role of parasites, *Andrew F. Read* 97
Adaptive significance of infanticide in primates, *Mariko Hiraiwa-Hasegawa* 102
Coral reef primary productivity: a beggar's banquet, *Bruce Gordon Hatcher* 106
Life in the allobiosphere, *John S. Edwards* 111
Obituary
E. B. Ford (1901–1988): the originator of ecological genetics, *David A. Jones* 115
Perspectives
The 'lost year' of the sea turtle, *William M. Hamner* 116
Letter to the Editor
Whither plant ecology? *Jonathan Silvertown* 118
Book Reviews
Insects and the Plant Surface (B. Juniper and T.R.E. Southwood, eds), *May R. Berenbaum* 119
Tropical Ecology and Physical Edaphology (R. Lal), *Robert H. Cowie* 120
Multivariate Analysis of Ecological Communities (P. G. N. Digby and R. A. Kempton), *Raymond J. O'Connor* 121

June

page
News
Friends in need: burying beetles and their mites, *J. Bartlett* 123
Sexual conflict and female choice in fishes, *Tim Halliday* 124
Restoration of species-rich calcicolous grassland on ex-arable land in Britain, *Jonathan Mitchley* 125
The nature of an adaptive radiation, *M. J. Benton* 127
Reviews
Dynamics of size structure in plant populations, *Toshihiko Hara* 129
Sex change and the size-advantage model, *Robert R. Warner* 133
Sex change in the Mollusca, *William G. Wright* 137
Holocene pollen sequences as a record of competitive interactions among tree populations, *K. D. Bennett and H. F. Lamb* 141
Letters to the Editor
Primate dispersal, *J. Moore* 144
Reply from *A. E. Pusey* 145

Commentary
Demise of the checksheet: using off-the-shelf miniature hand-held computers for remote fieldwork applications, *Andrew Whiten and Robert A. Barton* 146

Book Reviews
Viable Populations for Conservation (M. E. Soulé, ed.), *Katherine Ralls* and *Jonathan Ballou* 148

The Evolution of Sex (R. E. Michod and B. R. Levin, eds), and The Evolution of Sex and its Consequences (S. C. Stearns, ed.), *Paul Harvey* and *Austin Burt* 149

The Origins of Angiosperms and their Biological Consequences (E. M. Friis, W. G. Chaloner and P. R. Crane, eds), *A. H. Knoll* 150

Books Received 151

July

page

News
Is diet choice a picnic for leaf-cutter ants? *Catherine M. Bristow* 153

Introns and the origins of life, *Paul M. Sharp* 154

Ecology and epidemiology of infectious disease, *Sally Blower* 156

Feature
Hybrid zones – natural laboratories for evolutionary studies, *Godfrey M. Hewitt* 158

Reviews
Gut fungi, *I. Brent Heath* 167

The evolution of partial migration in birds, *Per Lundberg* 172

Patterns of heterochrony in the fossil record, *Kenneth J. McNamara* 176

Book Reviews
Primate Societies (B. B. Smuts, D. L. Cheney, R. M. Seyfarth, R. W. Wrangham and T. T. Struhsaker, eds), *J. M. Ayres* 180

Evolutionary Biology of the Fungi (A. D. M. Rayner, C. M. Brasier and D. Moore, eds), *S. C. Watkinson* 181

The Butterflies of Costa Rica and their Natural History (P. J. De Vries), *J. Mallet* 183

August

page

News
Ecology 75 years on, *Andrew M. Sugden* 185

Biological invasions into nature reserves, *James A. Drake* 186

Life after the tsetse fly, *Brian D. Perry* 187

Hydraulic lift: broadening the sphere of plant–environment interactions, *Christopher B. Field and Michael L. Goulden* 189

Reviews
How do migratory songbirds cross the Sahara? *Franz Bairlein* 191

Rodent dynamics as community processes, *Lennart Hansson and Heikki Henttonen* 195

Differential foraging for resources and structural plasticity in plants, *Michael J. Hutchings* 200

Paleoecological feedback and the Vendian–Cambrian transition, *Mark A. S. McMenamin* 205

Perspective
Gaps in fossil teeth: saltations or sampling errors? *J. S. Jones* 208

Book Reviews
The Evolution of Individuality (L. W. Buss), *Daniel R. Brooks* 214

Population Ecology of Individuals (A. Łomnicki), *Christopher Dye* 215

Books Received 216

September

page

News

Going, going... guan! *Andy Dobson and Enrique G. Ortiz* 217

The password effect of sex in fungi, *Sean Nee* 218

Multidisciplinary perspectives on evolutionary innovations, *Frank K. McKinney* 220

Reviews

The evolution of ferredoxins, *Jacques Meyer* 222

Differential fertility as a major mode of selection, *Joseph Travis* 227

Inbreeding avoidance behaviors, *Sharon Forster Blouin and Michael Blouin* 230

Evolutionary responses of plants to anthropogenic pollutants, *Louis F. Pitelka* 233

Causes and consequences of migration by large herbivores, *J. M. Fryxell and A. R. E. Sinclair* 237

Commentary

Static and dynamic explanations for patterns in food webs, *John H. Lawton and Philip H. Warren* 242

Book Reviews

Avian Genetics: A Population and Ecological Approach (F. Cooke and P. A. Buckley, eds), *L. Gustafsson* 245

The Niche in Competition and Evolution (W. Arthur), *Bryan Shorrocks* 246

Environmental Physiology of Plants (A. H. Fitter and R. K. M. Hay), *F. I. Woodward* 247

October

page

News

Sex with dead cells may be better than no sex at all, *Mark A. Elgar and Ross H. Crozier* 249

Processes of molecular evolution, *John F. Y. Brookfield and Paul M. Sharp* 250

Optimal foraging and arbitrary food distributions: patch models gain a lease of life, *Alejandro Kacelnik and Carlos Bernstein* 251

Reviews

Interactive influence of infectious disease and genetic diversity in natural populations, *Stephen J. O'Brien and James F. Evermann* 254

Behavioural ecology in traditional societies, *Monique Borgerhoff Mulder* 260

Projection matrices in population biology, *Jan van Groenendael, Hans de Kroon and Hal Caswell* 264

Fruit-eating birds and bird-dispersed plants in the tropics and temperate zone, *Nathaniel T. Wheelwright* 270

Commentary

The Solnhofen limestone and the preservation of *Archaeopteryx, N. H. M. Swinburne* 274

Parasitoid theory: from aggregation to dispersal, *Donald R. Strong* 277

Book Reviews

Introduction to Ecological Biochemistry (3rd edn) (J. B. Harborne), *P. G. Waterman* 281

Long-term Forest Dynamics of the Temperate Zone (P. A. Delcourt and H. R. Delcourt), *Thompson Webb III* 281

Handbook of the Birds of Europe, the Middle East and North Africa, Volume V: Tyrant Flycatchers to Thrushes (S. Cramp *et al.*, ed.), *Stephen R. Warman* 282

Potentials and Limitations of Ecosystem Analysis (E-D. Schulze and H. Zwölfer, eds), *Louis J. Gross* 283

November

page

News

Stability of Atlantic kelp forests, *Jon D. Witman* 285

Worker reproduction in social insects, *Joan E. Strassmann* 286

Interphyletic competition between tadpoles and insects, *Henry M. Wilbur* 287
The evolution of bowerbuilding, *Mark D. Pagel, Rosie Trevelyan and Paul H. Harvey* 288
Rapid morphological change in an introduced bird, *Stuart L. Pimm* 290

Reviews
New ideas in ungulate phylogeny and evolution, *Christine M. Janis* 291
Selfish genetic elements, *John H. Werren, Uzi Nur and Chung-I Wu* 297
Lotteries in communities of sessile organisms, *Torbjörn Fagerström* 303

Perspective
Spatial dispersal of species, *J. D. Murray* 307

Commentary
Forest decline and dieback – a global ecological problem, *Dieter Mueller-Dombois* 310

Book Reviews
Effects of Atmospheric Pollutants on Forests, Wetlands and Agricultural Ecosystems (T. C. Hutchinson and K. M. Meema, eds), *Mike Ashmore* 313
The Natural History and Behavior of North American Beewolves (H. E. Evans and K. M. O'Neill), *H. Jane Brockmann* 313

December

page

News
DNA from a 7000-year-old brain, *Austin L. Hughes* 315
Conservation of the giant *Rafflesia* in Sabah, Malaysia, *Ghazally Ismail* 316
Territorial interrogative, *Linda Partridge* 317
Joint nesting in the acorn woodpecker, *Leon A. Bennun and Andrew F. Read* 319

Reviews
Stickleback fishes: bridging the gap between population biology and paleobiology, *Michael A. Bell* 320
Games fish play: making decisions as a social forager, *Manfred Milinski* 325
Untangling the spider's web, *Fritz Vollrath* 331

Perspectives
Grazing impact in relation to livestock watering points, *M. H. Andrew* 336
How did 'biopolymers' evolve before life began? *J. E. Scott* 340

Commentary
Palaeoecology and plant population dynamics, *I. Colin Prentice* 343

Book Reviews
New Directions in Ecological Physiology (M. E. Feder, A. F. Bennett, W. W. Burggren and R. B. Huey, eds), *Richard Sibly* 346
Ecological Approach to Pest Management (D. J. Horn), *Sandra J. Walde* 346
Primate Social Systems (R. I. M. Dunbar), *Carol M. Berman* 347
Books Received 348

Author's Corrections

The SPIDER program: rebuilding ecology in Argentina, *Jorge Rabinovich* (February, pp. 33–34) 61
The effect of sex chromosomes on the rate of evolution, *William R. Rice* (January, pp. 2–3) 121
